FAQS

HOW MUCH CBD SHOULD I TAKE?

While dosage depends on many factors, we suggest starting with a fourth or half the listed dosage or this formula:

0.25mg CBD x 1 lb. body weight = approx. daily dosage

WHAT'S THE DIFFERENCE BETWEEN CBD FULL SPECTRUM, BROAD SPECTRUM, & ISOLATE?

Full Spectrum contains up to 0.3% of THC, which is the legal limit but not enough to get you high. Broad Spectrum contains non-discernable THC (none). CBD Isolate is 99% pure CBD and does not contain any other cannabinoids, terpenes, or THC.

WILL CBD SHOW UP ON A DRUG TEST?

CBD should not show up on a drug test, as drug tests typically test for THC and its metabolites. However, some CBD products may contain trace amounts of THC (0.3%+), so choose topicals (which have a low absorption rate & don't penetrate the bloodstream) or broad spectrum products if you're concerned about drug testing.

THE STORY OF WRAPPED in hearts

The idea of Wrapped in Hearts was born during the pandemic when a group of friends came together to support the essential workers who were selflessly serving the community. The group's goal was simple: to show others that even during the toughest of times, love and kindness can prevail. Fast forward a few years and a businessman I had worked with before reached out to me with a proposition. He shared his idea for an industrial hemp company and how I could potentially get involved. I was humbled and touched to be considered, but I wasn't interested. The stigma surrounding hemp, marijuana, and CBD was deeply ingrained in me. I had extensive knowledge about these plants, and none of it was positive. A few days later, I received a book in the mail called The Emperor Wears No Clothes: A History of Cannabis/Hemp/Marijuana which opened my eyes to the industrial and medicinal

benefits of hemp. The information the book provided was overwhelming and shocked me greatly, but it also dispelled all the lies I had heard in the past. I decided to further research the subject and discovered that my understanding of hemp and all things associated with it was simply based on incorrect information I'd either read or heard. Once the business plan was shared and I realized the work ahead would be beneficial to nearly anyone and everyone, I was all in! Thus, making natural products available that help lessen some physical or emotional stressors and promote an exceptional life became Wrapped in Hearts' passion project, all while building connections, educating and supporting others, & spreading love!

WRAPPED IN HEARTS IS...

- a word-of-mouth, hemp CBD party sales company that offers a wide range of products & emphasizes the need for connections in every way
- a trusted partner in our customers' health & wellness, embracing a strong commitment to help others live differently, live better, & live a quality life
- improving the lives of those who struggle with stress, anxiety, depression, & many other issues that affect the majority of Americans today by manufacturing & distributing quality hemp products that do what they claim to do
- inviting every customer to be part of our family, an exclusive club that stands ready to serve you!

Our **mission** is to promote wellness, health, and happiness through hemp-derived CBD while fostering human connections to improve the world.

We encourage people to form deeper connections with themselves, their loved ones, and their community, all while pursuing a lifestyle of emotional growth, spiritual and physical learning, and good health, for we believe prioritizing wellness is essential to leading a happy and fulfilling life.

EXAMPLE SCENARIO

TOTAL SALES (PARTY 1)	\$500
SUB/ONLINE SALES	\$100
TOTAL SALES (PARTY 2)	\$500
SUB/ONLINE SALES	\$100
TOTAL SALES (PARTY 3)	\$500
SUB/ONLINE SALES	\$100
TOTAL SALES (PARTY 4)	\$500
SUB/ONLINE SALES	\$100
TOTAL	\$2,400

LET'S SAY YOU...

- have 1 party a week
- sell 10 products per party/week
- set up 2 subscriptions per party/week (recurring monthly)
- average product price is \$48 (we'll round up to \$50 for easy math)

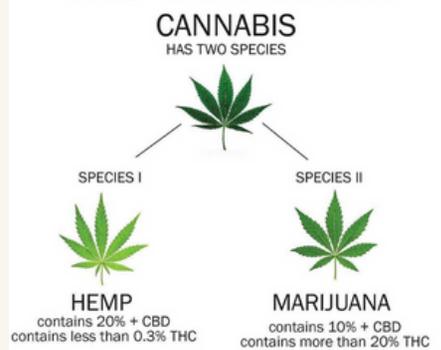

KEEP IN MIND...

subscriptions are "passive" income & they'll accumulate your growth in terms of sales & contacts will grow exponentially as time goes on...meaning your income will grow exponentially as well!

& that's from hitting a very achievable benchmark of 40 products & 8 subscriptions sold per month. This could truly be a full-time gig you can run on your own time, mainly from your home!

HEMP VS MARIJUANA

There is a common misconception that CBD is marijuana and that it will get you high. Our CBD is derived from the Hemp plant, which you can think of as the cousin to the Marijuana plant. They are both a species of Cannabis plant, but the main difference is that Hemp has a high amount of CBD and a low amount of THC (what gets you high), whereas Marijuana has a high amount of THC and a low amount of CBD. So no, CBD will not get you high. It will, however, most likely improve your quality of life!
